

DR. LOUISE LIANG

D.M.D.

After graduating from the University of British Columbia in 2002, I dedicated myself to providing dental care to the Steveston community. Having grown up in Saskatchewan, I moved to BC at the age of 18, and have since called BC home. I obtained 2 degrees from UBC and have taught as a clinical instructor at the School of Dentistry since 2012.

My love is Dentistry, but my passion is delivering CARE and providing solutions. No one tooth is the same; and no one patient is the same. Whether it's transforming a smile, grafting bone or counting backwards from 10 before you fall asleep, I truly enjoy participating in your healthcare, and consider it a privilege that you would chose us as your provider.

On the days that I am not working, I dream of far away adventures as much as home bound Sundays by a cozy fire. I have a curious mind and am always looking to immerse myself in new environments. Being an avid traveler and an aspiring photographer, I am a National Geographic's Life Long Explorer and have been to the most remote corner of the earth. I seek out people, places and phenomena that are unique, harmonious and beautiful. I also love the outdoors and you will catch me always trying to run a better marathon.

I take tremendous pride in having built a team that is exceptional at what we do. Our team at Bayview Dental is the leader in Sedation, Aesthetics, Invisalign, and Implant Dentistry. We look forward to meeting you and taking part in your CARE.

Credentials:

I have spent all of my practicing years on the cutting edge of dentistry. I have extensive training in the areas of sedation and over the years, have helped countless numbers of patients regain their confidence and achieve their potential. I am a member of the AACA(Invisalign), Invisalign Platinum Provider, Reingage(Invisalign), ICOI (a Fellow of ICOI, Implantology), BITES Institute(Implantology), DOCS Education(Sedation), HealthyStart(Airway, Growth and Development); and last but not least our local BCDA, CDA, and CDSBC. I am also involved with a global volunteer program that brings dental care to children around the world(Global Dental Relief). Their journeys usually take us to countries such as Nepal, India, Kenya and Guatemala.
